

Time: 30

Score: 0

ZIG ZAG

BY Juan Pablo

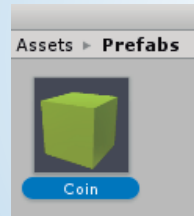

you must reach the goal and collecting as many coins as possible avoiding to falling down. Take care, the time runs out!

You can configure:

Player's force, this affect the movement's speed. This force will increase each time that the player collects a coin.

Maximum time of the game, when it reaches 0, the game is over.

You can add more coins as simple as dragging in the scene the prefab called "Coin", or remove it from the scene.
